### **FINDINGS AND DECISION**

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

#### **Background**

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits dated March 22, 2012

- 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated.
- W1 – Workers Compensation Jurisdictional Fee Schedule Adjustment
- 236 – This procedure or procedure/modifier combination is not compensable with another procedure or procedure/modifier combination provided on the same day according to the National Correct Coding initiative.

Explanation of benefits dated May 3, 2012

- 148 – This procedure on this date was previously reviewed
- 18 – Duplicate claim/service
- 193 – Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.
- B13 – Previously paid. Payment for this claim/service may have been provided in a previous payment.

### **Issues**

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

### **Findings**

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Procedure code 72100 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0260, which, per OPPS Addendum A, has a payment rate of \$44.84. This amount multiplied by 60% yields an unadjusted labor-related amount of \$26.90. This amount multiplied by the annual wage index for this facility of 0.9947 yields an adjusted labor-related amount of \$26.76. The non-labor related portion is 40% of the APC rate or \$17.94. The sum of the labor and non-labor related amounts is \$44.70. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$44.70. This amount multiplied by 200% yields a MAR of \$89.40.
  - Procedure code 76000 has a status indicator of Q1, which denotes STVX-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicators S, T, V, or X that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date. Review of the submitted information finds that OPPS criteria for separate payment have not been met. Payment for this service is included in the payment for procedure code 64483 billed on the same claim. The use of a modifier is not appropriate. Separate payment is not recommended.
  - Procedure code 64483 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0207, which, per OPPS Addendum A, has a payment rate of \$523.33. This amount multiplied by 60% yields an unadjusted labor-related amount of \$314.00. This amount multiplied by the annual wage index for this facility of 0.9947 yields an adjusted labor-related amount of \$312.34. The non-labor related portion is 40% of the APC rate or \$209.33. The sum of the labor and non-labor related amounts is \$521.67. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$782.51 divided

by the sum of all S and T APC payments of \$1,054.62 gives an APC payment ratio for this line of 0.741982, multiplied by the sum of all S and T line charges of \$3,962.00, yields a new charge amount of \$2,939.73 for the purpose of outlier calculation. The provider billed this procedure code with modifier 50. Bilateral procedures are paid at the rate for two units. The highest paying status indicator T procedure is paid at 100% for the first unit; each additional T procedure unit is paid at 50%. The APC amount is \$782.51. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$782.51. This amount multiplied by 200% yields a MAR of \$1,565.01.

- Procedure code 64484 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 50%. These services are classified under APC 0206, which, per OPPS Addendum A, has a payment rate of \$272.98. This amount multiplied by 60% yields an unadjusted labor-related amount of \$163.79. This amount multiplied by the annual wage index for this facility of 0.9947 yields an adjusted labor-related amount of \$162.92. The non-labor related portion is 40% of the APC rate or \$109.19. The sum of the labor and non-labor related amounts is \$272.11. Per Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if a claim has more than one surgical service line with a status indicator of S or T and any of those lines has a charge of less than \$1.01, then the charges for all S and T lines are summed and the charges are divided across those lines in proportion to their APC payment rate. The new charge amount is used in place of the submitted charge amount in the line-item outlier calculation. This claim has a status indicator S or T line item with a billed charge less than \$1.01; therefore, all S and T line charges are reallocated accordingly. The APC payment for this service of \$272.11 divided by the sum of all S and T APC payments of \$1,054.62 gives an APC payment ratio for this line of 0.258018, multiplied by the sum of all S and T line charges of \$3,962.00, yields a new charge amount of \$1,022.27 for the purpose of outlier calculation. The provider billed this procedure code with modifier 50. Bilateral procedures are paid at the rate for two units. The highest paying status indicator T procedure is paid at 100% for the first unit; each additional T procedure unit is paid at 50%. The APC amount is \$272.11. The cost of these services does not exceed the annual fixed-dollar threshold of \$1,900. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line, including multiple-procedure discount, is \$272.11. This amount multiplied by 200% yields a MAR of \$544.22.

3. The total allowable reimbursement for the services in dispute is \$2,198.63. This amount less the amount previously paid by the insurance carrier of \$2,196.69 leaves an amount due to the requestor of \$1.94. This amount is recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has established that additional reimbursement is due. As a result, the amount ordered is \$1.94.

### ***ORDER***

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$1.94, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
